PROJECT UPDATE

Stay Informed with the New Narthex Building Milestone Display

In the Narthex, you will find a new milestone display which shows some simple, high level milestones that will lead us to **groundbreaking**. Each time a milestone is reached, we will let you know through a pulpit announcement along with someone from our Building Team standing by the display to answer any questions that you might have about what's done and what's coming next.

What's Happening Now?

Previously, we mentioned that we had secured Project Approval from the Diocese. Now, we are happy to report that Steve Becht, Diocesan Director of Construction, is personally engaged on our project. Steve works to oversee the technical aspects of the design, project management, and construction of our new campus. Steve and his team have already been a huge help and we are happy to report that the Diocese is prioritizing our project with their most experienced team. As an engineer, attorney, and real estate broker, Steve brings more than 25 years' experience in construction design and management. Please join us in welcoming Steve to our St. Philip Building Team.

Diocese of Fort Worth
Director of Real Estate
and Construction

NEXT MILESTONE: HIRING A GENERAL CONTRACTOR

Selecting a General Contractor is an important step in the building process. Our Construction Technical Advisory Committee is currently working with our new Diocesan Building Team to find just the right General Contractor to build our new church. Reviews of candidates start soon, so **please pray for success in our search.**
